MHP | MODERN HOME PRODUCTS

We draw on experience to lead the industry in creating quality products year after year.

Modern Home Products (MHP) was founded in the 1950s by Walter Koziol in Antioch, Illinois. Initially focusing on manufacturing outdoor gas lighting, MHP later expanded its product line to include gas grills, including the introduction of the first outdoor gas grill and the first rectangular designed grill with a hinged lid. Over the years, MHP has continued to refine its products, incorporating advancements in technology and materials to meet the evolving needs of consumers.
