Fireplace Design Guide

our story

Mendota Hearth is the leading name in luxury gas fireplaces. Our products are proudly designed, engineered and built in the U.S.A. We take pride in knowing our quality components, full-seam welding, heavy gauge steel and hand assembly fireplaces will last a lifetime in your home.

A Mendota fireplace represents the pinnacle of luxury living for homeowners looking for the best in aesthetics, quality and performance from every element of their home. More innovative technology for more comfort and convenience. More remarkable aesthetic choices to make the fireplace your favorite place. More time making memories in front of a beautiful, roaring hearth.

You get more with Mendota.

LANDSCAPE

This mid-century modern shape merges modern design with traditional warmth in Mendota's Landscape line of gas fireplaces. Its updated shape emulates a high-definition television to improve your view of any fire.

CLASSIC

The Classic line of gas fireplaces brings familiar comfort and warmth to your home. A wide variety of sizes make this line the perfect fit for any size room. Its shape may be easily recognizable, but its design options are definitely extraordinary.

LINEAR

Mendota's Linear gas fireplaces combine modern style with effortless comfort. Their sleek, wide design highlights a ribbon of flames that add warmth, sophistication and drama to any space.

choose your *fire*

Next, select the flame pattern that matches your desired effect. We are dedicated to creating gas fireplaces that bring wood-burning realism into your home. Over our history, we've designed and engineered advanced burners that efficiently offer authentic flame patterns. Nothing compares to a Mendota fire.

NOTE: burner types vary by model.

FIREIN

The FireIn™ design uses the latest fireplace technology to create an unparalleled level of realism. Flames dance around and through hand-painted log sets to enhance the authentic look and feel of a wood-burning fire.

Scan to learn more.

TRADITIONAL

The Traditional flame pattern adds depth and drama with its two-tiered burner that shifts effortlessly from gentle flames to a roaring fire. Glowing embers enhance the realism, while a variety of log sets let you bring your style to life.

TIMBERLINE/DÉCOR

This line showcases a modern look, with flames rising naturally from beneath the logs or media. Choose from Timberline log sets like birch or driftwood to Décor options such as river rock or shimmering glass.

your style your way

Mendota gives you so many ways to customize your fireplace, the possibilities are endless.

Authentic log sets and **contemporary fire media** put the flames on center stage.

Fronts and doors from Mendota frame your fire in finishes that enrich your unique style.

Interior linings make your Mendota fireplace as engaging to look at when the fire is off as when it's on. At mendotahearth.com you can explore all of your design options and build your own fireplace to fit your exact style.

FV42 FullView with Norway Spruce HD Log Set, Black Flat Panel Liner, and Brushed Chrome Wide Grace Front

Mendota Cool Wall

Mendota Cool Wall uses natural convection to redistribute warm air up and away from surrounding areas, while your fireplace continues to deliver focused warmth. With the option to place your TV and decor as close as 15" above the fireplace*.

Mendota Versiheat

Mendota's exclusive Versiheat distributes a portion of fireplace heat to another area in your home. Warm air can travel up to 25' through ducts with their own blowers and thermostats to a room on the same floor, upstairs or downstairs from your hearth.

Mendota FlexHeat

Mendota's FlexHeat Technology gives you the choice to redirect heat to other rooms or move undesired heat out of your home. Specific Mendota fireplaces can use a FlexHeat kit to transfer up to 95% of the fireplace generated convection heat.

*NOTE: Running the convection fans will increase wall temperature. The TV can be mounted as low as 15" above the fireplace with the convection fans turned OFF. To use fans with Mendota Cool Wall installed, ensure your TV or decorations are placed 24" or more above the fireplace.
