

# BUYER'S GUIDE

## *Outdoor Fireplaces*

# Why Choose an Outdoor Fireplace?

An outdoor fire is more than a fireplace. It is a feeling of comfort, of relaxation, and social togetherness. Enjoy the company of those you love long into the evening and create memories that will last for years to come.

Nothing matches the impromptu late nights huddled around a fire, hours of sidesplitting laughter surrounded by old friends, or relaxing and romantic nights spent cuddled up in front of a warm fire under the night sky. An outdoor fire is a conduit for all these experiences and is unmatched in creating the perfect ambiance for any situation.

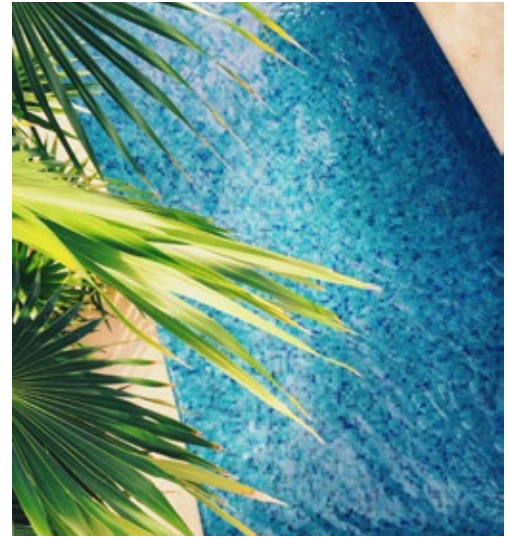

Create your outdoor oasis and enjoy hours of entertainment with a new outdoor fireplace from Regency!

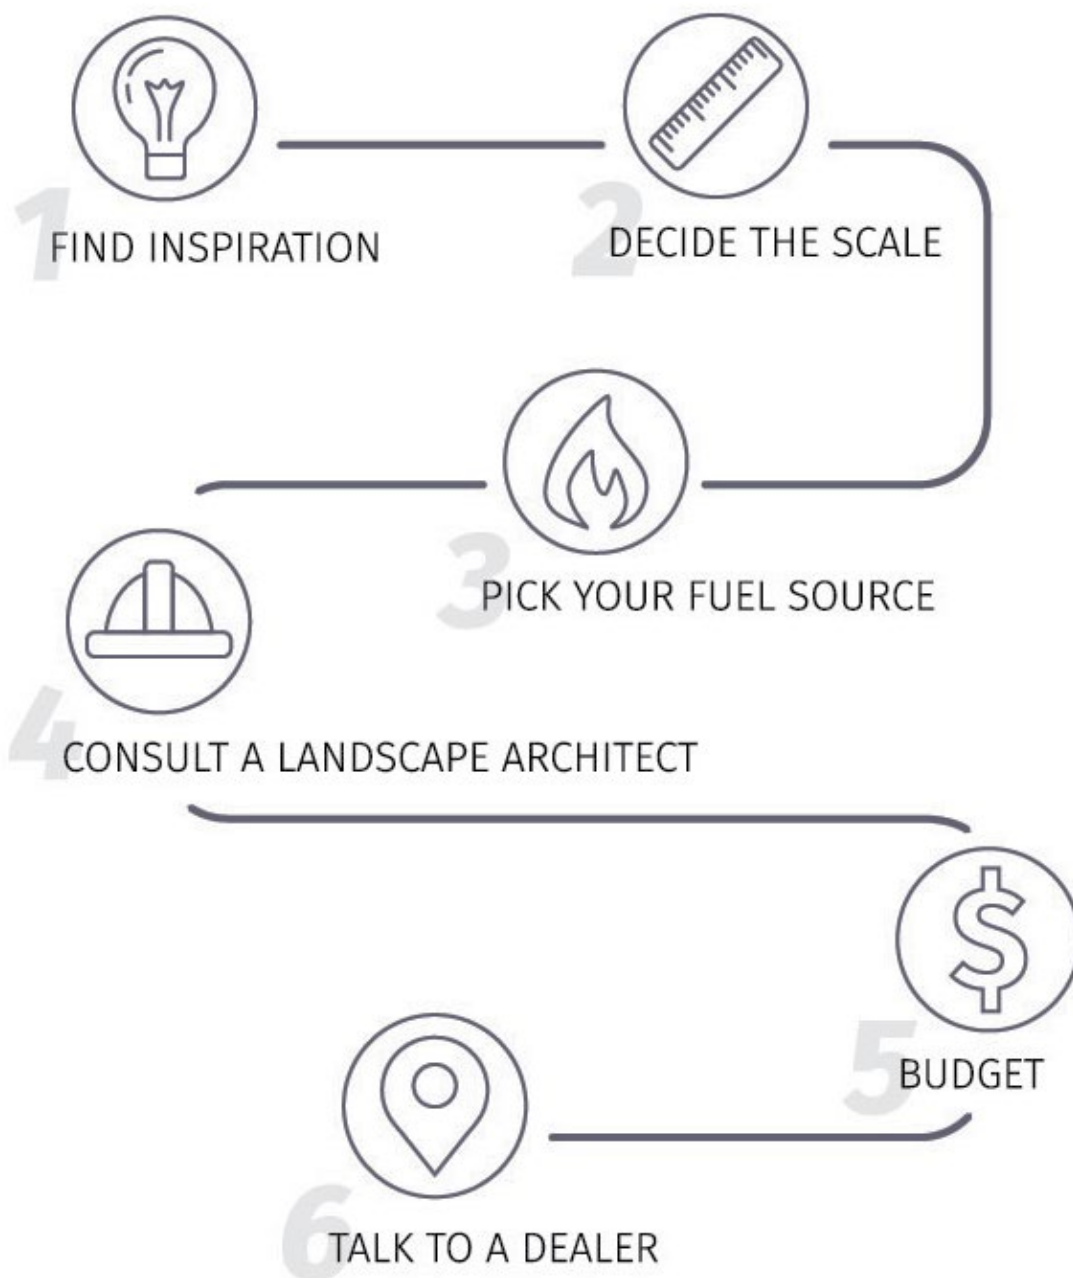

“

*Adding an outdoor fireplace is about so much more than building a fireplace. It's about creating a space that brings people together. Let Regency help you on your path to creating an outdoor oasis.*

# *Path to Your Outdoor Fireplace*

01

**FIND INSPIRATION**

Search magazines, design blogs and social sites like Pinterest for design inspiration and to help get ideas that you can apply to your own home.

02

**DECIDE THE SCALE**

Decide how big you want your project to be. Are you building an entire new patio and full landscaping or just adding to what you already have?

03

**PICK YOUR FUEL SOURCE**

Is your fireplace going to run on Natural Gas or Propane? Do you have an existing hookup or do you need to factor in storage tanks? If so, how large do they need to be?

04

**CONSULT A LANDSCAPE ARCHITECT**

Find someone local who has done work you like and bring them in for a consultation. They will be able to give you more clear options for your project as a whole and steer you in the right direction.

05

**BUDGET**

Decide how much you are willing to spend and what the breakdown will be for landscaping, construction, and the fireplace.

06

**TALK TO A DEALER**

Contact your local Regency authorized dealer for sales and installation of your new custom-designed fireplace feature!

# *Customization Goes Beyond Style*

As an extension of your home, your patio should be as distinct as you and a key to that is your fireplace. With Regency's line of fully customizable outdoor burners, tables and fireplaces, you can sculpt your outdoor oasis to be one-of-a-kind – just like you!

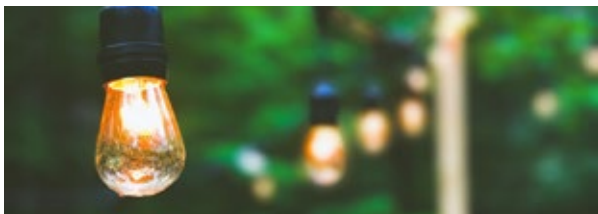

Consulting with your Landscape Architect will help your fireplace be less of an afterthought and more a focal point of the entire yard. Regency's fully customizable outdoor fireplaces can be framed for a traditional fireplace look, built into a table for a custom firetable, or built into custom fire feature as pictured above.

# *Create an Outdoor Focal Point*

There is something special about adding a fireplace to your home; it becomes a focal point for family gatherings, a place to curl up and enjoy the soothing heat on a cool night, or a dramatic architectural feature. Whether indoors or out, a fireplace is a great addition to any home!

# *Stay Comfortable, Longer*

Keep the party going and enjoy your patio later into the evening by adding unmatched warmth and a source of ambient light perfect for those late night parties. With the addition of an outdoor fireplace you can also spend more time outside in the spring and fall months – extend patio season with a new outdoor fireplace.

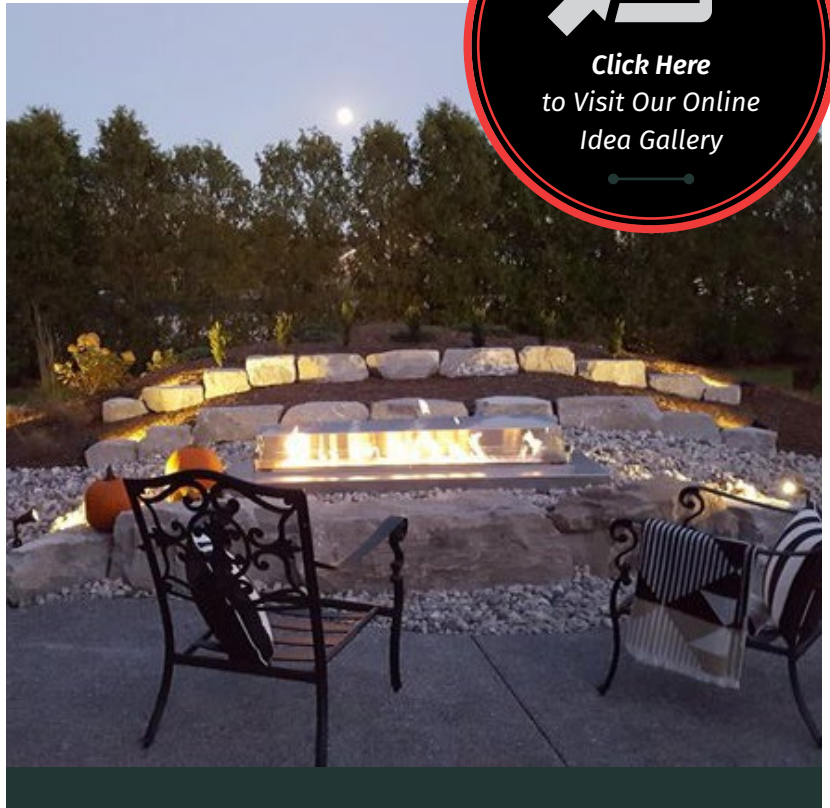

## *Guaranteed Quality*

Regency Fireplace Products builds their outdoor gas fireplaces to last. Using high-quality stainless steel designed to withstand the elements year round. We believe quality is in the details, and we work hard every day to build some of the longest-lasting and best fireplace products on the market.
